

NEWSLETTER

June/July 2016

Hi all

Hope you are all enjoying the half term. I would like to remind everybody of the forthcoming Summer Club Championships on the 12th. Every club member is expected to take part and they will all be put in their respective groups.

On Sunday the 17th July, we will all be going to Barnet for the second leg of the Grand Prix. As you know all the other clubs supported our comp in February so I'm hoping to take a strong group to Barnet not only in ability but in numbers. The club will subsidise the entries partially, £5 entry from parents per diver.

Jack Petchey Award

As you know we were awarded £250 and after nominations were received I am pleased to say Taro has been voted as the latest recipient. His constant enthusiasm, his integration with the other divers as well as his improvement as a diver were some of the reasons given for his nomination. The coaches fully endorsed and agreed with Taro as the worthy winner. Taro has kindly decided to use the money to fund the medals and trophies at the comp on the 12th. Any money that's left over will go towards taking the group to Stratford for some extra training at the LAC. I will advise times and dates in the near future, but hopefully everyone will go before the summer break.

European Masters

The European Masters were recently held at the LAC and both our coaches John and Rick competed. John managed to finish in the top 20 in his single event with a great effort. Rick however stole the show by winning Gold on the Platform, Silver on the 3m and Bronze on the 1m. An incredible achievement to say the very least.

Thursday Training

I am still waiting for confirmation from Fusion when they can fully support Thursday even training with regular lifeguards. As soon as this is confirmed we can open up the sessions.
